# Citywide Spaces

Smarter Facility Management in One Platform

Citywide Spaces helps organizations take control of their facilities—from buildings and rooms to the assets inside them. This platform allows you to organize your physical spaces, improve service delivery, and make smarter planning decisions with a single, centralized system.

A Deeper Level of Facility Insight

Citywide Spaces goes deeper than traditional asset management systems by giving you a detailed view inside every site, floor, and room. You can organize spaces with flexible hierarchies, track key details, and attach assets to their exact locations for more accurate tracking. With maintenance and asset data grouped by space, you can generate reports on usage, capacity, and more, helping you understand and improve how your facilities are used.

Fully integrated with Citywide Assets, Citywide Maintenance, and the Citywide Customer Portal, Citywide Spaces gives you a complete view of your facilities and other critical infrastructure, from community centers to parks, water treatment and utilities. The Citywide Mobile app helps streamline work orders for your field team, so you can plan smarter and manage efficiently.

Level Up Your Asset Management

Built for All Facilities

Built for all types of spaces—universities, recreation centers, water treatment plants, libraries, parks, and more.

Timely Insights & Reporting

Get the timely insights you need for smarter planning. Easily generate comprehensive reports on room capacity, bookable space availability, and associated costs.

Boost Productivity with the App

Streamline maintenance with the Citywide Mobile app. Field teams can update work orders and assets, capture condition assessments, and upload photos in real time—helping you save time and boost productivity.

Facility Performance at a Glance

Quickly find answers to key planning questions, like how much bookable space exists across all buildings, the total square footage under management, or which rooms are due for maintenance. Visualize floor plans and drill down to individual rooms, with all related work orders and service requests easily accessible.

Who It's For

Citywide Spaces is built for public sector teams that manage physical spaces. We help you confidently track, maintain, and improve your facilities—from city halls to science labs.

Perfect for:

- Municipal Buildings & Facilities
- Colleges & Universities
- Libraries, Recreation & Community Centres
- Healthcare & Nonprofits
- Corporate & Real Estate Teams
- Parks & Conservation Authorities
- Water & Waste Treatment Plant Operators

Ready to Take Control of Your Spaces?

Stop wrestling with spreadsheets and disconnected systems. Citywide Spaces gives you a single source of truth for your facility data, linking everything from floor plans and room details to assets and work orders. Know exactly what you have, where it is and how it's being used.

It's time to make your space data work for you.
